EDITORIAL CORRESPONDENCE OF THE SENTINEL.

Madison, Feb. 6, '54.

I enclose a list of the railroad companies of our state, as gathered from the state books of 4 years past, with the exception of two or three.—(Every one of which have a right to land grants more than others?) I suppose that the distance chartered is over 15,000 miles, though it is difficult to give anything more than a guess at many of these roads, there being one end fixed, the like then projecting off into space.

The U. S. Senator project does not gain friends with the rapidity expected by its originators, and I should not be surprised now to see it dropped, and those who started it talk of its being "all a joke." It is reasonably probable that such a measure should be pushed unless those interested are of care carrying it; in that case no opposition, or disapprobation on the part of the people will prevent its consummation. Let us wait and see.

Nothing remarkable has occurred since my last. The weather is and has been charming for the season, and just seasonable—clear, cold, bracing, healthy.

The House adjourned to meet at 9½ A.M., this morning, and as that hour approaches there are doubts expressed as to the presence of a quorum of members, 42 being required, and the seats being quite empty.

I learn that several of the certificates issued to Thomas Reynolds are among those protested for non-payment by the Fox River Improvement Co., and that a memorial is coming in, in regard to this.

The *Argus* and *Democrat* of Saturday dourished the whip over the heads of those who are supposed to be *sojourning* enslaved by party to endure the application, in regard to the Nebraska resolution. I was unfortunate in my early education as to the doings, and misdeeds, and tendencies, and principles of *Loco Focoism*, and was never surprised at any iniquity practiced or permitted by its leaders; but nevertheless I cannot and will not believe that the representatives of the people of Wisconsin will venture to refuse what the people of the people as to this Nebraska project. We shall very soon see how this is.

P. S. 9½ A. M.—A quorum present—45 members in the Hall, by actual count. W. H. W.

Jones B. Macv.—Mr. J. M. Thomas, son-in-law of the Judge, and Asa C. Chapman from Fond du Lac County, denies that he has ever had carriage to ride, or an U. S. Senator for his Private Secy., or lives extravagantly, as has been charged by Washington letter-writers. The Milwaukee *Advertiser* and the *Journal* of Waukesha, and the *Democrat* of Beloit, We know nothing about the matter. We should be pleased, however, to have some one explain why Mr. Macv.'s name is so often mentioned in the list of names and nays?—*Appleton Crescent* (*Dem.*)

That is easily done. The only question thus discussed in the House, or upon which the "nay and nays" have been called, is the "War of the Whigs" in New York. Now it is well known that the Hon. J. B. Macv., with the anti-slavery of being "all things to all men," has been in "hand" when in company with Harde, and "soft" when thrown among Sojfa. But it was quite impossible to maintain this accommodation, as a "yea and nay" vote, our astute Congressman preferred to come up "misleading" rather than show his hand. After his "hand" Grant, we are all safely thro' the House, we shall doubtless find out just where Mr. Macv. stands on this delicate question.

LEAD MINES OF WISCONSIN.—It has usually been supposed, from the hasty and partial examination heretofore made of these mines, that the ore were merely capsular in crevices in the yellow limestone; and hence that no dependence could be had upon any calculations in regard to their extent, etc. But it is now stated, before the Legislature, that they constitute "true veins." If this statement can be fully substantiated by him, in the report now in press, by reference to well ascertained facts and arguments, it will be a discovery of inestimable importance to the prosperity and future growth of our State.—A true vein is of indefinite extent, and reaches down so far towards the center of the earth that the mines have yet been able to penetrate to the bottom of any of them, though there are very deep mines at present worked in some parts of the world. If confidence can be established in the truth of this statement, these veins will attract the capital and skill necessary for full development, and the benefit that resulting to the state would soon pay for half a dozen geological surveys.

BANK COMPTROLLER.—A bill has been introduced into the Assembly to create the office of an Assistant Bank Comptroller, a salary of \$1,000 per annum. This measure will be soon introduced in some quarters, but in the large and increasing amount of business devolving upon the office, we can see no objection to the bill. The Comptroller cannot attend to all the business with which he is charged, and assistance must be had, and by whom else than the State? Mr. Dennis is not able to do the whole himself—

They let him resign. The Bank Comptroller is the best paid officer in the State and has the best to do. Before he should be furnished with an assistant to do the work, while the principal pocket the salary, every other State Officer, from the Governor down, should be similarly provided at the public expense. The pretence that Mr. Dennis is over-worked, or underpaid, is a mere feint to excuse the creation of a new office for some hungry party hack.

THE LAND GRANT BILL.—We hear from a gentleman, just returned from Washington, that the only road named in the Land Grant bill which has passed the Senate and is now pending in the House, is the Rock River Valley. We think, however, that this must be a mistake and that other roads are included in the grant. But be that one or many; coming to, or avoiding Milwaukee, we are against the whole policy and earnestly hope for its defeat.

A TOWN DESTROYED.—The town of London, Madison County, Ohio, was destroyed by fire on the 2d instant.

Two whole squares were swept clean; five dry goods stores, the telegraph office, Odd Fellows hall, two shoe stores and the American Hotel, besides two clothing stores, one printing office, one furniture store, house and several other buildings, were destroyed. The loss is now estimated at \$200,000. The amount of insurance is not known.

M. & M. RAILROAD.—A correspondent, writing from Wiscasset, explicitly contradicts that much-needed changes in the *Independent Press* against the officers and managers of the M. & M. Rail Road, and bears witness to their efficiency, integrity and pains taking effort to accommodate the travelling and business public.

ONE THOUSAND LABORERS WANTED!—Messrs. COOK and SHERMAN advertise for One thousand Laborers to work on the La Crosse and Milwaukee Rail Road between this city and Germantown. Apply at their office in Kneeland's Block, East Water Street.

NEBRASKA and "Agritization."—The Madison *Democrat*, organ of our State Administration, backs up the Washington Union, organ of the National Administration, in the position assumed by the latter on the Nebraska bill. Both our State and National Administrations, it appears, fully approve and sustain this attempt to repeal the Missouri Compromise and allow Slavery to march, pari passu, with the extension of our Republican Institutions, North, South, East and West. The People of these United States—especially of the Free States—have labored, it seems, under the delusion that states and bounds had been set to the "peculiar institution," beyond which it was not to be permitted to spread—at least not under the "Stars and Stripes"—and this delusion Senator Douglas has kindly undertaken to dispel. If the principle of his Nebraska bill shall prevail, there is nothing to prevent Slavery, instead of Freedom, from becoming the badge of our Republic.

The Madison *Democrat* not only endorses Senator Douglas' bill, but denounces as "crazy resolutions" the series introduced into the Assembly by Mr. Bailett, protesting, in the name of the People of Wisconsin, against this Slavery-extension measure, and calls upon "the democrats in the Legislature" to quash this attempt at "Agritization." We are curious to see how many will heed its call, and submit to fresh excisions from the Slaveholding aristocracy of the South, supported by office-seeking and spoils-loving Douglastics at the North. The *Morning News* is zealous for this inquiry, and tries to sugar the pill, which it calls upon our Legislature to swallow, by the following assurance:

"So far as the practical effect of this bill is concerned, it will not add one inch of slave territory to the United States."

How much reliance is to be placed upon this positive averment, may be inferred from the fact that the Nebraska Delegate, or Agent at Washington, urges the necessity of stipulating for the abolition of Slavery in that territory, on the express ground that there are already several hundred slaves there; and from the corroborating circumstance that the Liberal (Missouri) Platform calls upon the General Government to remove Major Ogden, Assistant Quartermaster at Fort Leavenworth, for making "Free Soil" declarations, and introducing Free Soil settlers within the limits of Nebraska. For our part, we hold that the Legislature of Wisconsin will have the manliness to re-affirm the well-known and well-settled opinions of our People on this question, and not abandon that position at the bidding of party hacks, Presidential aspirants, or pro-Slavery and "agitators."

PROSPECTIVE HOUSE.—The following paragraph from the Auburn *Daily Advertiser* relates to the recent change in the extensive publishing house of DAVIS & MITCHELL, Auburn, and DAVIS, COOT & MULGAN, Buffalo, of which a notice appears in our advertising column:

Mr. Davis has sold out his entire interest in the Publishing House of DAVIS & MITCHELL, Auburn, and DAVIS, COOT & MULGAN, Buffalo. His interest was purchased by those associated with him; who have now the *Exclusive Proprietors* and control of the business, and will establish a new house, which will be carried on both here and in Buffalo, with increased facilities, under the firm of M. L. MITCHELL & MULGAN.

RAIL ROADS IN WISCONSIN.—We publish this morning a list of all the Rail Road Companies chartered by the Legislature of this State—in number fifty-three, and to extent indefinitely; several of the lines terminating at Ruger's Sound. It is perhaps proper to add, for the information of "outsiders" that these roads are not yet all built; but they all succeed in getting ultimate and Grand from Congress, it is possible that the young Mr. Pratt has attended to this point in his organization.

MY SPEED'S LINE.

Latest from Erie.—Peace Pro-

claimed.

(Private Dispatch for the Sentinel.)

Cleveland, Feb. 7th.

Gov. Ingalls arrived here to-day. Many of

our citizens and Gov. Merrill called on him.

The best feeling prevailed. By an amicable ar-

angement, passenger trains now run on narrow

gauge, but one change (at Erie) and that from

one side of platform to the other. It is hoped

that the war of the gauges is ended.

C.

Honolulu Iron Works.—We have seen some

few specimens of their iron recently made at Rich

& Co's, and are very well made.

The blacksmiths who are now working it—

Rich & Co's, are now preparing to make wrought

iron.

It will be ready before the market opens.

It is well worth the wait.
